DESIGNER JILLIAN STRAKY CREATES A SOPHISTICATED
YET RELAXING SPACE FOR A BUSY FAMILY.

JILLIAN'S DESIGN TIPS

- 1** Painting the room a soft white and adding a stunning wall covering on two walls gives the room texture and visual interest.
- 2** Rich green, charcoal gray, beige and mixed metals create a modern family room that is relaxed but sophisticated.
- 3** Choosing a large sectional in a family friendly fabric creates the perfect place for the whole family to gather.
- 4** An armchair in a soft green velvet offers a touch of dramatic glamour that is still cozy and inviting.
